

# JORDAN CHALK

Manufacturing Company:

1995 - 2002

- In 2002 The Molded Chalk Plant was established in Al'aa village south of Jordan by founder Mr. Salah Aloqbi.

2003 - 2007

- Introduced Dustless chalk, which is based on using calcium carbonate and was produced by developing our know how techniques.

2008 - 2009

- Established a semi-automatic extrusion chalk plant.
- Jordan chalk started exporting to more than 50 countries worldwide.

2010 - 2012

- Increased Dustless chalk production capacity 4 times in order to meet customers' needs and market demands.
- March 11 marks the day His Majesty king Abdullah II paid the Jordan Chalk Factory in Al'aa village a visit.

2013 - 2014

- Re-located the Chalk Factory to Karak industrial zone on area of 7500 sqm. Thus, increasing our capacity by 40% in order to meet our client's demands across more than 100 countries worldwide.

2017 - 2018

- Establishing and running modelling clay plant.

## ABOUT US

Jordan Chalk is a family business that was established in 2002. It is specialized in providing and manufacturing high quality products through using unique raw materials comprised of calcium carbonate found in huge quantities across Jordan. This has enabled us to export 98% of our product to over 100 countries, of which are numerous well-known brands.

Being worldwide pioneers in producing different kind and shapes of chalk, crayon and modelling clay Jordan Chalk is recognized and among its competitors for providing:
