## JORDAN CHALK

Jordan Chalk has manufacturing chalk since 2002, it is located in the Jordan, The story behind producing chalk is the availability of raw material calcium carbonate and calcium sulphate in huge quantities with unique properties. This makes our company is the only world company that produces all kinds and shapes of chalk.

Today Jordan chalk is ahead of it's competitors when it comes to:

- Private label services, Promoting a complete convenient and affordable turnkey private label solutions.
- Unique product, supply our clients with customized product in the global market.
- High quality by applying the highest standards of quality.
- Competitive prices, continuous Research to reduce the production cost.
- Delivery time, our mass production enables us to set near zero delivery time.

We are fully aware that we have to be competitive in the market, We ensure that best quality and personalized services are our basis of successful.

## CERTIFICATES

This product is made only with raw materials approved by UNI - EN 71

This product can be washed off one's hands by using water and soap

This product is particularly fit for school usage

The container of this product has been recycled

This product complies to UNI - EN/71 rules.

This product This product is not suitable for children under 3 years of age.
